The Modern....

The Professional....

Technology....

SERVICES

● CNC Laser cutting

Our laser can cut sheet sizes up to 3000 x 1500mm up to thickness' of

- 20mm in Mild Steel
- 15mm in Stainless Steel
- 15mm in Aluminium
- 6mm in Brass
- 6mm in Cooper

● CNC Punching

- CNC punch press plunge formed and tapped holes in a thin sheet metal plate
- CNC punch and die used to create witness free cuts in sheet metal
- Can be used for simple cutting jobs
- Thicknesses of up to 3 mm can be cut
- Can be used for multiple repetitive jobs
- Comparatively low cost service
- Faster processes and higher turnaround

● Machining

- CNC Lathe work
- CNC Milling work
- Vertical CNC Boring work
- Horizontal CNC Boring work
- Drilling work

● Portable Machining

- For shutdowns, breakdowns or new installations.
- Oval Manway Cutting
- Pump and Motor Bases
- Flanges
- Key Way Cutting
- Drilling & Tapping
- Pipe Cutting
- Weld Preparation

● Millwright Services

- Experienced in reconditioning with the support of our machine shop.
- Valves (up to 36")
- Gearboxes (as large as 38' long)
- Bearing Assemblies
- Rebuilding of Pumps (slurry, water, propane, etc.)
- Motor and Pump Installations
- Laser Coupling Alignments

● Welding & Fabrications

- Our welding department can provide many welding processes that include general fabrication and Defence Vehicle fabrication from steel, stainless steel, aluminum and brass products.
- Pipe Cutting and weld preparation on request.

● Fabrications in Steel, Aluminum and Stainless steel

- Defence Automotive body parts
- Columns, Beams, Bracing, Girts, Sag Rods
- Industrial Equipment Support Steel
- Conveyors and Conveyor Supports
- Pipe Racks
- Stairs and Handrails
- Ladders
- Concrete Slip Forms
- Anchor Bolts

● Sandblasting and Painting

- Defence Automotive body parts
- Columns, Beams, Bracing, Girts, Sag Rods
- Industrial Equipment
- Conveyors and Conveyor Supports
- Pipe Racks
- Stairs and Handrails

Our Services

LASER CUTTING

CNC MACHINING

MILLING

BENDING

Our Products

Platework

- Bins and Tanks
- Hoppers
- Chutes
- Stacks
- Belt and Chain Guards

Metal Cutting

- CNC Plasma Cutting Table
- Torch Cutting
- CNC Saw Cutting
- Metal Shear

Computer Aided Design

- AutoCAD 2D or 3D
- Mastercam
- Advance Steel
- Inventor 3D

Material

- Armour Plates, Strenx, Hardox, Guardian, Mars, Armox
- MS Sheet, Coil & Plates
- SS Sheet, Coil & Plates
- Aluminium Alloy 1100, 3003, 5005, 5083, 6082

FASTNERS

CABLE MANAGEMENT SYSTEMS

SHEET COIL & PLATES

MS TUBES & PIPES

CLAMPS & PIPES HOLDERS

EXPANDED MESH & METAL PRODUCTS

INDUSTRIAL & IT CABINETS

BLASTING

PAINTING

FABRICATION

WELDING

ASSEMBLY

We manufacture for these industries

1. MACHINES ENGINEERING
2. CONTAINER ENGINEERING
3. DEFENCE VEHICLE
4. MEASURING TECHNOLOGY
5. CONVEYORS
6. CRANE ENGINEERING
7. COOLING SYSTEMS
8. AGRICULTURAL MACHINERY
9. FOOD INDUSTRY
10. LOGISTICS (RACKING)
11. MECHANICAL ENGINEERING
12. PLANT CONSTRUCTION
13. LABORATORY TECHNOLOGY
14. WAGON ENGINEERING
